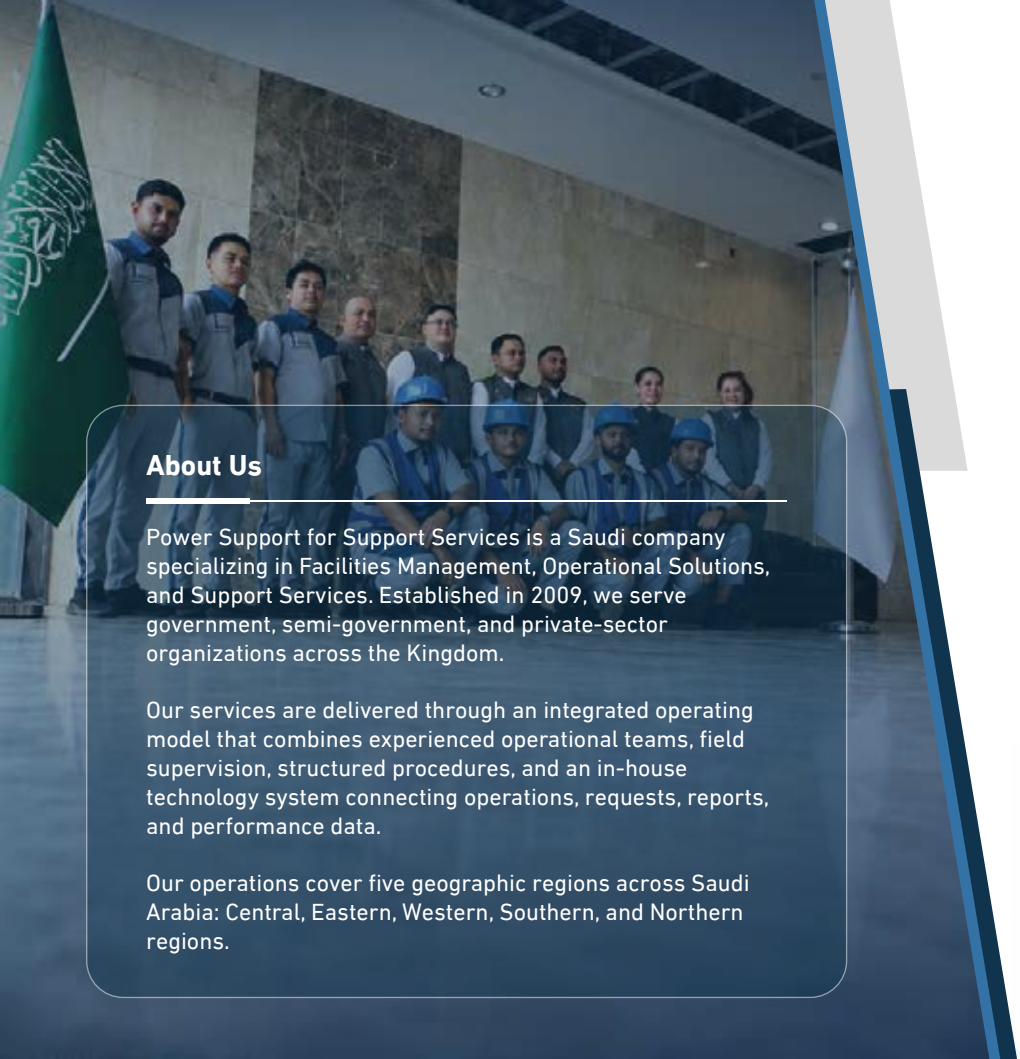
Power Support for Support Services

Facilities Management, **Operational Solutions & Support Services**

When Strength Meets Support

Your Operational Partner



About Us

Power Support for Support Services is a Saudi company specializing in Facilities Management, Operational Solutions, and Support Services. Established in 2009, we serve government, semi-government, and private-sector organizations across the Kingdom.

Our services are delivered through an integrated operating model that combines experienced operational teams, field supervision, structured procedures, and an in-house technology system connecting operations, requests, reports, and performance data.

Our operations cover five geographic regions across Saudi Arabia: Central, Eastern, Western, Southern, and Northern regions.

Our Vision

To be a trusted operational partner for facilities across Saudi Arabia through an integrated facilities management model that enhances readiness, service efficiency, and operational sustainability.

Our Mission

To manage and operate facilities and support services with efficiency and reliability through qualified teams, clear procedures, continuous oversight, and technology that supports service quality and performance measurement.

We cover five geographic areas in the Kingdom

Our Values

Sustainability

Efficient resource utilization and responsible asset management.

Innovation

Technology and data that support better decisions.

Partnership

WHY POWER SUPPORT?

Operational Experience Since 2009
Extensive field experience across diverse sectors and operating environments.

Integrated Operating Model
Managing multiple services through clearly defined scopes, responsibilities, and operating processes.

Governance & Performance Measurement
Structured procedures, service levels, and performance indicators that support effective execution and monitoring.

In-House Technology System
Connecting operations, requests, reports, and execution data to support visibility and follow-up.

Nationwide Coverage
Operations across five geographic regions: Central, Eastern, Western, Southern, and Northern Saudi Arabia.

Continuous Improvement
Analyzing performance data and turning insights into opportunities to improve processes and operational efficiency.

We manage operations through a clear methodology, measure performance, and continuously improve.
